Summary I am a resourceful and adaptable full-stack developer, driven by a strong desire for continuous learning. I developed my expertise at IO Academy through rigorous coursework and practical projects, laying a solid foundation for my software development skills. During my tenure at Enable, I gained invaluable hands-on experience that enriched my skills, ultimately shaping me into a proficient and confident professional.

Technical Skills & Certifications	PHP Slim, OOP, MVC	JavaScript React, Node, TypeScript, jQuery	CSS Scss, Bootstrap	HTML
	Git GitHub, BitBucket	MySQL	Trello	WordPress
	VirtualBox	Docker	Certified Scrum Master	

Professional Experience

Enable **Dec 22 - Feb 24**
Brighton
Web Developer

- Using PHP, jQuery, CSS, and HTML I successfully developed a new web product which allows customers to both onboard and self-serve via a customer portal.
- I utilised Trello to manage individual tasks and responsibilities. This ensured clear organisation and accountability within the team, alongside supporting with effective time management and problem-solving
- Throughout the Project I developed and maintained strong relationships both internally and with external suppliers to ensure challenges were overcome and results were delivered.
- I embrace opportunities to learn from the experiences and insights of fellow team members, leveraging their expertise to expand my own knowledge and skills for both the business and coding
- I made myself readily available and contributed to ensuring a positive team dynamic, by offering assistance and support to colleagues whenever needed, fostering a collaborative and inclusive work environment.
- Having a naturally proactive nature has meant I consistently looked for opportunities for self-improvement and professional growth throughout my employment tenure – I sought regular feedback from peers and mentors to identify areas for improvement, and implemented strategies to strengthen my development skills.
- Being an ambitious individual I take the initiative to learn new skills and technologies which I feel would add value to any role I hold.

Expatriate Group **Jun 19 - May 22**
Burgess Hill
Insurance Administrator

- Developed and managed diverse client relationships, delivering personalised solutions to meet individual needs.
- Engaged clients directly to address insurance policy queries, ensuring clear communication and satisfaction.
- Conducted quality assurance testing on the internal website to ensure optimal functionality and performance.

Education

iO Academy **Jul 22 - Oct 22**
Full Stack Track Software Development Bootcamp

- I successfully completed the Full Stack Track Software Development Bootcamp.
- It is an intensive and immersive educational program designed to teach individuals coding skills and prepare them for careers in technology within a short period.
- Example project: I developed an email client using React that interacts with an existing API. I managed the project using Scrum, ensuring high quality code through peer reviews and version control with Git. For the visual design, I utilised Bootstrap, CSS, and HTML, with some customisation beyond Bootstrap.

Marist College, University in New York, USA **Mar 13 - Mar 17**
BSc, Business Administration (Marketing concentration & Advertising minor with Business Strategy)

Education First International Academy, New York, USA **Mar 11 - Mar 13**
US High School Diploma
